PARKLAND COLLEGE
STUDENT OCCUPATIONAL FOLLOW-UP SURVEY
CLASS OF 1999-2000

INTRODUCTION

This follow-up study of Parkland graduates was a collaborative effort between the Office of Institutional Research/Evaluation (OIRE) and the Career Planning and Employment Services (CPES). The OIRE was responsible for mailing and CPES for following up.

Approximately five weeks after graduation, 550 graduates of occupational programs were initially contacted with a mailed survey. A copy of the survey instrument can be found in Appendix A. Non-respondents were mailed a second survey three weeks later. The remaining non-respondents were contacted by telephone calls which began three weeks following the second mailing. This approach generated a response rate of 69.5%.

The OIRE was responsible for data entry, analysis and reporting. A preliminary report on employment and hourly salary was submitted to CPES in November, 2000.

Data are presented in the following tables on rates of graduate employment, meeting college objectives, hourly salary, and satisfaction with current job, major and outside major program areas, student services, academic services and college services.

The survey results are presented in the form of tables. Graduate demographic information by degree program appears in Tables 4-6. Employment data by program is contained in Tables 7-7E. Hourly salary outcomes are located in Tables 8-10B. Graduate satisfaction tables are numbered 11-21, with graduate satisfaction outcomes by gender, ethnicity and age group contained in Tables 18-20A. A listing of the employers of Parkland graduates is contained in Table 22.

A new question was added to the 1999-2000 survey. Tables 23-24 reflect perceptions of Parkland's contribution to graduates' improvement in reading, writing, speaking, doing math, and solving problems.
